Sorry, not sure if I replied, but the agenda looks good to me.

Thanks Alice, this looks great. Not that I want to make this any longer, but we probably do need just a few slides of background on the site itself (cause, nature and extent of contamination). I think there will be a lot of discussion and questions

Everyone:

given the extent of the Fox River presentation, I would suggest the only three topics for the meeting:

- Fox River
- Debrief and discussion of the 1/12 meeting with the RA
- Expanding CAG membership

Is there anything else that must be discussed that I am missing?
Doug

Attached is a draft of the presentation that Jim Hahnenberg proposes to give for the CAG meeting. It is about a one hour presentation. Please let me know what you think.
